ABOUT

A young learner looking to learn more by working with experienced veterans and to get enlightened by being in an environment fit for the development of skills. My expertise is in web development and Android Development . I also have C, C++, Python, Structure Query Language (SQL), Data Structure and Algorithm (DSA), and DevOps under my wings as of late.

Motivated and detail-oriented professional with a strong foundation in computer science. I am committed to continuous learning and growth, seeking to leverage my skills while gaining valuable experience from seasoned experts. My proactive approach and passion drive me to deliver high-quality results and contribute effectively to team success.
