About Me

A young Learner looking to learn more by working with experience veterans and to get enlighten by being in an environment fit for development of skills. My expertise being in Web Development and Structure Query Language (SQL). I also have C, C++ , Python , Data Structure And Algorithm (DSA) and Android Development under my wings as of late. Looking forward to use my skills wherever needed with that being set my main aim is to gain valuable experience by working with people far more superior than me in terms of knowledge, experience and expertise.

Professional Experience

AZ MEDICAL SERVICE | Junior/ Web Developer

2022-2023

- Managed website for the above mentioned firm helping them grow their business by 7% while being there.
